Re: Request for Information Pursuant to Section 104 of CERCLA and Section 3007 of RCRA for the Artel Chemical Site, Nitro, WVa.

Dear Sir:

In response to your request for information please find enclosed copies of invoices and shipping papers for the past 3 years.

According to our records we have not provided Artel any chemicals other than pure raw materials which we sold to them.

We have not asked Artel to process any waste or by-product materials produced by ourselves or others.

They have supplied raw materials for some of our products. These raw materials are t-Octul chloride, Dinitro benzophenone, Dibromo butane and Allyl chloride.

We are a small company and Artel has been a good supplier for these special materials. We hope that eventually things will return to normal and they can once again be the valued supplier they were.

Sincerely,

A handwritten signature in dark ink, appearing to read "David B. Wiley".

David B. Wiley
